and  
On Budget***

## How We Do Business

- Synergistic approach to project management by utilizing resources and expertise of all employees.
- Create value through relationships and win-win contracts with clients and vendors.
- Excellent record of successful execution of environmentally and politically sensitive projects both onshore and offshore.
- Strong reputation for safe, efficient, and cost effective planning and execution of field operations.

**Expert Planning, Predictable Execution**

## About Us

JAB Energy Solutions L.L.C. is an EPIC specialist providing comprehensive project management services for decommissioning, abandonment and construction of offshore and onshore oil and gas facilities, platforms and pipelines. Based in Houston, Texas, JAB Energy Solutions serves major and independent energy companies worldwide.

JAB Energy Solutions was established in 2008 by industry veterans with extensive backgrounds in offshore construction. The management team has over 100 years of operational experience in executing offshore installation and abandonment projects. In the past five years alone, JAB Energy Solutions has executed over \$300 million in decommissioning projects.

As a mid-size engineering firm with capabilities rivaling the largest EPIC providers, JAB Energy Solutions offers full service, plus uncommon agility and responsiveness to meet your unique needs.

## A Reputation for Safe, Efficient, Cost Effective Planning and Execution
